The tranquil gardens of Lagud Seberang Agricultural Park Tenom are places worth visiting. The gardens are not actually recognised as 'a garden' but little enclosures within gardens that have its own identity.

The shades and enclosures are places that visitors can sit on and rest. While resting they can enjoy the scenery, mostly green, around them.

The gardens in Lagud Seberang are actually planned spaces, set aside for the display, cultivation, and enjoyment of plants and other forms of nature. The gardens there incorporate both natural and man-made materials.

There are also food-producing gardens there such as fruit trees and vegetables.
