The Kota Kinabalu chapter of the Chaîne des Rôtisseurs was officially opened recently at a resort here. Known as an international organisation for gourmet and wine enthusiasts, the Chaîne is aimed at encouraging its members to reevaluate their dining habits and rediscover the true joy of good food and

drink.

Originating from France, the Chaîne des Rôtisseurs takes its roots in Middle Age European trade guilds, specifically from one comprised of chefs. The organisation takes its name from the rôtisserie or spit roast style of cooking, particularly of geese, a meat that was

popular at the time.

The Kota Kinabalu chapter of the Chaîne des Rôtisseurs represents the latest in a line of such local segments of the organisation opened in Malaysia. For more information, visit the Chaîne des Rôtisseurs Malaysia website at www.my-chaine.org.
