

Mataking Reef Day, 9 June

Come and be part of dedicated conservation efforts during the Mataking Reef Day this month. The Reef Dive Resort in Mataking, located some 45 minutes by boat from Semporna, has invited secondary school students from Tawau and their teachers to visit the island and participate in a clean-up session. Participants will also be treated to an educational talk on the damage caused by littering. Non-divers and children can participate in the beach clean-up, while divers will collect rubbish from the reefs underwater. The group who collect the most rubbish will win a prize, and a special award will be given to the strangest item found during the clean-up! This and many other fun activities have been lined-up in conjunction with Mataking Reef Day. Make your way to Mataking this June and do your part for Mother Nature.

3rd Environmental Week 16-23 June

The Malaysian Association of Hotels (MAH) (Sabah Chapter sub-committee on Safety, Security & Environment) will be organizing the 3rd Environmental Week this month. The highlight of the event is a 'gotong-royong' clean-up at the Tanjung Lipat beach in Likas from 7:00 am to 12:00 noon on 16 June, involving some 150 participants from MAH member hotels, schools and the City Hall. On 23 June, come and join the excitement at Tanjung Aru Beach during the Fun Raft Race Challenge. The rafts are made out of used mineral water bottles with a single sheet of plywood as the frame. See how you can play a part in conserving and preserving the environment during the 3rd Environmental Week. This event is supported by major hotels, resorts and schools in Kota Kinabalu as well as the Sabah Journalists Association.
