PROTECT WILDLIFE  
SUPPORT CONSERVATION

Kuno is one of the few Sumatran Rhinoceros (*Dicerorhinus sumatrensis harrissoni*) roaming the world today. One of the smallest of the remaining five species of rhinoceros, Kuno is quite the beauty with her long lashes and thick reddish brown hue! She can grow up to 4 feet tall and spends her days exploring the Borneo rainforests in search of leaves and fruits. Elusive yet curious, Kuno also worries about her future as her natural habitat is often disturbed and hunters threaten the survival of her species. You can make a difference by purchasing Kuno in which RM10.00 of the proceeds will go to the Rhino Trust Fund. Thank you for your support!
